Directions: This feed contains 10 mg/lb. of Monensin. Feed to provide 50-480 mg/hd/day. Provide at least 1-3% of animals body weight depending on desired gain wanted and body condition of the animal being fed. Provide plenty of fresh drinking water. Good quality forage can be fed at a desired rate by feeder.

Caution: Do not allow horses or equines access to formulations containing Monensin. Ingestion of Monensin by equines has been fatal. (Complete Feeds) Monensin medicated cattle feed is safe for use in beef cattle feed only. Do not feed to lactating dairy cows. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result.
